

West Bay Sanitation District Code of Safe Practice

FOR IMMEDIATE RELEASE
Initial date: June 01, 2012

Questions or comments regarding this Code of Safe Practice should be directed to the Regulatory Compliance Coordinator.

Sanitary District Construction Inspector

The Sanitary District Construction Inspector is the front line employee for the District that oversees the proper installation of pipelines, couplings, connections, valves, etc. according to established Federal, State, Local and District laws, regulations, policies and procedures. The Construction Inspector may be exposed to such hazards as: vehicular traffic, construction site vehicles, cave-in, electrical, falling hazards, atmospheric, pinching, crushing, mechanical, pneumatic, and unsanitary Bloodborne Pathogen hazards.

DEFINITION

Under the supervision and general direction of the Projects Manager; assists in the enforcement of state laws and District Regulations relating to sanitary health and safety; performs other work as required.

TASKS AND HAZARDS

- Performs inspection of installations of sanitary sewer systems and connections made for conformance to approved plans and specifications.
- Interacts with the public and property owners to explain requirements of the construction work being performed.
- Interacts with contractor to induce compliance with the plans of the project and Federal, State, and Local regulations, policies, and procedures.
- Potential of exposure to construction work site heavy equipment, which could cause injury.
- Potential of exposure to vehicular road user traffic while working on or near the active roadway.
- Potential of exposure to excavation, trenching, shoring cave-in due to entry into excavations to inspect equipment connections, etc.
- Potential exposure to atmospheric hazards, electrical hazards, cave-in hazards, fall hazards, Bloodborne Pathogens, drowning hazards, mechanical,

pneumatic, and pinch/crushing hazards. (This is not an all-inclusive hazard list.)

SITE RESPONSIBILITIES

- Authority to identify and correct deviations from the plans, materials, and methods of construction.
- Authority to shut down, temporarily or in whole, a project that is considered to be unsafe for the construction workers or the public at large.
 - This could include: Trenching, Shoring, Excavation; Temporary Traffic Control and Flagger; Fall Protection; Atmospheric testing and monitoring; Personal Protective Equipment; Heavy Equipment Operation; and Machine Guarding.
- Authority to shut down, temporarily or in whole, a project that, if required, does not have the proper Lockout and Tagout procedures and/or methods applied.
- Continuously conducts surveys and/or inspection of construction work sites for safety of the construction workers or the public at large.

PERSONAL PROTECTIVE EQUIPMENT

Protection Area	PPE Required
Eye	Wear safety glasses or goggles as appropriate to the location, work being performed, and the equipment being used on the work site. Must meet ANSI Z87.1-2003 Standard.
Face	None required.
Hand	Gloves compatible with the type of work and/or sanitary contaminant that may be encountered. Examples (but not inclusive): <ul style="list-style-type: none"> • Heavy equipment – Heavy cloth or leather work gloves. • Sanitary contamination – impermeable gloves such as latex or Nitrile.
Head	Must wear ANSI Z89.1 Standard hardhat whenever on the construction site.
Foot	Must wear ANSI Z41-(latest version) Safety steel or composite toe safety shoes or boots. Must also meet the ASTM F2413-05 Impact Resistant Footwear requirements.
Body	Appropriate clothing to protect worker from the specific hazards of the construction work site.
HV Apparel	Class 2 or 3 High-Visibility Apparel as required by ANSI/ISEA 107-2004.
Respiratory	None required.
Hearing	Wear earplugs or earmuffs as necessary due to noise level of equipment on the work site.

I, _____ (*print name*) have read and understand the safe work practices listed above and will operate the designated machine in accordance with them, the manufacture’s operating instructions and the supervisor’s instructions.
