

The West Bay Sanitary District has won the California Water Environmental Association (CWEA), Collection System of the Year Award for the Santa Clara Valley Section!

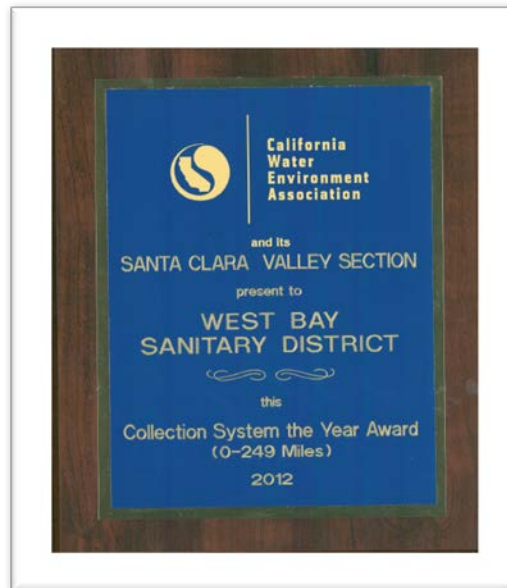

The award recognizes the District for their effort in operating a top quality organization and leading the way in the water environment field.

District Staff has implemented numerous improvements to its maintenance program, safety program, pipeline replacement projects, customer service and has considerably reduced sanitary sewer overflows to a record low. These and more accomplishments are captured in the District Performance Measures Report.

Established in 1929, CWEA's awards program has grown to acknowledge outstanding achievement in more than 20 categories honoring exceptional California water environment professionals, collection systems, and treatment plants. Categories include Plant of the Year, Collection System of the Year, Public Education Program of the Year as well as awards of individual professionals in various vocations. In early 2012 Pipeline Inspection Technician; Brian Chu received the Collection System Person of the year award and Field Supervisor;

Heath Cortez received the Collection System Supervisor of the year. The program seeks to recognize outstanding achievements within the water environment field, improve the professional status of all personnel working in the field, and stimulate public awareness of the importance of wastewater treatment to public health and the water environment.

Nominations advance through CWEA's 17 local sections' awards programs and are eligible to compete statewide. Winners are announce in Mid-April each year. Congratulations to the West Bay Sanitary District Staff for the award and for their diligent work to keep California's water clean and community safe.
